LETTER OF DEFICIENCY #WELL - 04 - 02

Subject: Well Constructed for Town of Epping, Hoar Pond Well #2

Dear Mr. Morgridge:

A review of the New Hampshire Department of Environmental Services ("DES") public water supply records indicate that Clearwater Artesian Well Co Inc constructed a well for the Town of Epping on April 30, 1999, now known as Hoar Pond Well #2. A search of the NH Water Well Board ("Board") records indicates that the well completion report for the well was not submitted to the Board.

RSA 482-B:10 and We 801.03(a) and (c) require a water well contractor to file a well completion report with the NH Water Well Board within 90 days following completion of the well.

Please submit the original well completion report to the Board within 14 days of receipt of this notice.

The DES record (a facsimile of the well completion report) indicates that the well was drilled to a depth of 370 feet with a yield of 100 gpm. Please note that reports submitted to DES in association with permits or approvals does not satisfy the requirement for filing well completion reports to the Water Well Board, pursuant to RSA 482-B:10.

Failure to comply with this request within 14 days may result in the issuance of an administrative fine in accordance with the provisions of RSA 482-B:16 and Env-C 616.02 (e).

If you have any questions, please call Rick Schofield at 271-1974.

Sincerely,

COPY
